

"Over the past year Brasier Freeth has successfully completed many transactions for Blue Inc which has greatly assisted us in growing our business. They go that extra mile to deliver results and help ensure the best possible deals are delivered within agreed time frames."

- STEVEN COHEN MANAGING DIRECTOR

## Retained acquisition agency for Blue Inc

The extensive knowledge of the high street and retail market at Brasier Freeth LLP has been given high praise by young, fashion savvy menswear retailer **Blue Inc**.

Brasier Freeth are Blue Inc's sole acquisition agency, and they have been retained to support exciting plans for growth by accelerating their UK wide store opening programme. As national retail specialists Brasier Freeth are committed to sourcing and offering advice and solutions on retail locations and premises nationwide.

The challenge includes opening 20 new stores, some of which will introduce the new concept for women's wear 'Pink Inc'. These new stores will bring the total number of UK stores to 70, with plans for further growth in the immediate future.

Brasier Freeth have played an integral part in the acquisition of key locations. These include high street stores and out of town locations, including the opening of the new 3,800 sq ft flagship store in Liverpool One and other locations including Meadowhall, Brighton, Croydon and Reading.
